

ULTRA-HIGH INTENSITY, MULTI-PURPOSE ILLUMINATION SYSTEM

NightHunter Ext Ultra-High Intensity Illumination System – The NightHunter Ext, the world's longest range handheld illumination system, delivers both visible (white) and covert infrared (with optional filter) light to illuminate objects up to 1.5 miles away. The NightHunter Ext beam can be easily adjusted from a tight 0.5° spot to a 10° flood without any “black hole” in the beam to obstruct the field-of-view. The NightHunter Ext is instant on, can be turned off and back on immediately. The NightHunter Ext can be operated directly from any 12-32VDC power source. The Ext comes equipped with a Remote/Power Cable. Weight 5.5 lbs, Length 8.7”, Diameter 5.2”.

NHEXT-100 NightHunter EXT Basic Package - is ideal for fixed illumination with intense white light. The Basic Package includes the NightHunter Ext, Remote/Power Cable <hardwire>, AC/DC Converter Power Supply & Waterproof Case.

NHEXT-200 NightHunter Shield Mount/Convoy Package - allows you to attach the Ext to shields or weapons and includes the NightHunter Ext w/Rail Mount, Remote/Power Cable, Detachable Remote-Spade Grip, Detachable Remote-Tape Switch, 850nm IR Filter, NATO Slave Adapter, NH Shield Mount, BA-5590 Adapter & Waterproof Case.

NHEXT-300 NightHunter EXT Weapons Mount Package - is specifically configured for medium and heavy machine gun mounting, with visible and IR illumination to the effective range of the weapons. The Weapons Mount Package includes the NightHunter Ext w/Rail Mount, Remote/Power Cable, Detachable Remote-Spade Grip, Detachable Remote-Tape Switch, 850nm IR Filter, NATO Slave Adapter, BA-5590 Adapter & Waterproof Case.

NHEXT-400 NightHunter EXT EOF Package - provides the maximum versatility for “Ext” employment – fixed, vehicle or medium and heavy machine guns. The EOF Package includes the NightHunter Ext w/ Rail Mount, Remote/Power Cable, AC/DC Converter Power Supply, Detachable Remote-Spade Grip, Detachable Remote-Tape Switch, 850 nm IR Filter, NATO Slave Adapter, BA-5590 Adapter, BA-5590 Waterproof Case, NH Shield Mount and Waterproof Case.

NH1-6103 NightHunter Filter 850nm Near Infrared - allows you to project infrared light that is undetectable by the naked eye and significantly increases the range for detection, recognition or identification when using night vision or low-light video devices. The Filter is made of high quality, tempered glass that blocks visible light (<800nm) and transmits near infrared light (>45% transmittance @ 850nm, 88% @ 920nm). The Filter is made from aerospace-grade aluminum anodized to Mil A 8625 for protection, and easily screws into the front of NightHunter ONE or NightHunter EXT.

NH3-2001 NightHunter Remote/Power Cable - allows you to connect the NightHunter 3 to DC power for operation and charging and to remotely activate the system up to 10 feet away. The Cable comes equipped with the interface for the Detachable Spade Grip or Tape Switch, as well as backup activation switch.

NH3-2002 NightHunter Detachable Remote-Spade Grip - allows NightHunter 3 or NightHunter Ext to be turned on and off remotely. The Spade Grip is designed to replace the spade grip for M2HB or MK19 for ease of activation when used in conjunction with heavy machine guns. The switch cable can be attached directly to the Remote/Power Cable for added versatility.

NH3-2004 NightHunter Detachable Remote-Tape Switch - allows NightHunter to be activated via slender low profile pressure "tape" switch. The Tape Switch cable can be attached directly to NightHunter 3 or to the Remote/Power Cable for added versatility.

NHX-6650 NightHunter Shield Mount - allows the user to mount the NightHunter Ext to the Objective Gunner Protective Kit (O-GPK) or other similar shields & surfaces. The Mount secures the NightHunter with a quick-release Picatinny mount and provides the capability to pan and tilt the system, to illuminate targets, or to illuminate or project force away from the weapon.

NHX-6227 NATO Slave Adapter with 6' Cord - is designed to plug into any universal NATO receptacle and 24 Volt power to your NightHunter ONE or NightHunter 3. The Adapter features a NATO connector with 6 feet of cord terminated with a female-style cigarette lighter receptacle.

NH3-2003 BA-5590 Adapter - allows the user to connect the NightHunter 3 to a standard BA-5590 battery for external power operation or charging. The Adapter is terminated with a standard female cigarette lighter receptacle for use with either the DC Power or Remote/Power Cables.

NH1-6111 NightHunter Replacement Lamp Module - is comprised of a 65W xenon short arc lamp mounted in a screw-in type module that is factory-aligned and required no adjustment. The NightHunter ONE turns on immediately (no warm up) and will deliver sufficient illumination to detect targets approximately 1.5 mile away. Lamps are rated for 500 hours of use.

NH1-1002 NightHunter AC/DC Converter Power Supply - provides DC power to operate or charge the NightHunter ONE from AC sources. The AC/DC Converter operates from commercial power, 100- 240VAC, 47-63 Hz. The DC Output side has 12" of cord that is terminated with a standard female cigarette lighter receptacle that mates to the 10' Power Cord.
